

J. D. Lindsay Lecture Series 2006 - 2007

Artie McFerrin Department of Chemical Engineering • Texas A&M University

Spring 2007

02/09/07	Robert S. Parker	University of Pittsburgh, Pittsburgh, PA	Model-based Cancer Chemotherapy Design: from Developmental Therapeutics to First-Line Care
02/16/07	George Georgiou <i>Distinguished Speaker</i>	The University of Texas at Austin, TX	Discovery of Therapeutic Antibodies and Enzymes
03/02/07	Raul F. Lobo	University of Delaware, Newark, DE	From Nanoparticles to Crystals: Nucleation in the Age of Complex Materials
03/23/07	David J. Mooney	Harvard University, Cambridge, MA	Polymers that instruct cells to control tissue regeneration
03/30/07	Ronald L. Miller	Colorado School of Mines, Golden, CO	Development and Testing of the Thermal and Transport Concept Inventory
04/20/07	Menachem Elimelech	Yale University, New Haven, CT	Aggregation Kinetics of Nanoparticles in Aquatic Systems

Jack E. Brown Bldg., Rm 106, 3:00-4:00 PM
